92 CHAMBERS STREET

NEW YORK

Burnett's Cold Storage Lily of the Valley.

Best for Forcing ; always on hand—See page 9

Introduction

Autumn comes as a reminder to those who wish to enjoy the unrivalled beauty of the many spring flowers that bloom between March and June, that the bulbs from which this wealth of floral beauty emanates, must be planted in the fall.

Although experienced gardeners need no such reminder, there are many whom this catalog may reach, who are not familiar with the cycle of gardening operations that is essential in order that their gardens may possess these floral treasures, that rival in beauty and form the most brilliant display of the summer gardens, in which annual and perennial flowers predominate.

Each year brings forth its thousands of new enthusiasts who have been completely captivated with the huge size, odd colorings, and exquisite outlines of those wonderful Tulips known as Darwin, Breeder and Cottage varieties; and others who have taken a fancy to the dainty shapes and brilliant cups, or perhaps the majestic boldness of a large trumpet Daffodil.

A visit to the great New York International Flower Show is sufficient proof of the popularity of these flowers, where thousands assemble to view the latest innovations exhibited by private and commercial growers.

We have fulfilled our modest part in helping to popularize them, and each issue of our Autumn catalog is revised to include the latest novelties of proven merit, to meet the demands of those who must have the latest and the best.

Our many years dealing with reputable growers of these bulbs enables us to obtain at all times the best they can produce, both in variety and highest quality, at reasonable prices.

Although we can invariably anticipate our sales with a fair degree of accuracy, many of our stocks become considerably depleted as the planting season advances. For this reason we advise those who desire their orders filled accurately and in full, to order at once, and not wait until the ground is prepared to receive the bulbs.

BURNETT BROTHERS

New York, June 15th, 1923.

SPECIAL NOTICE

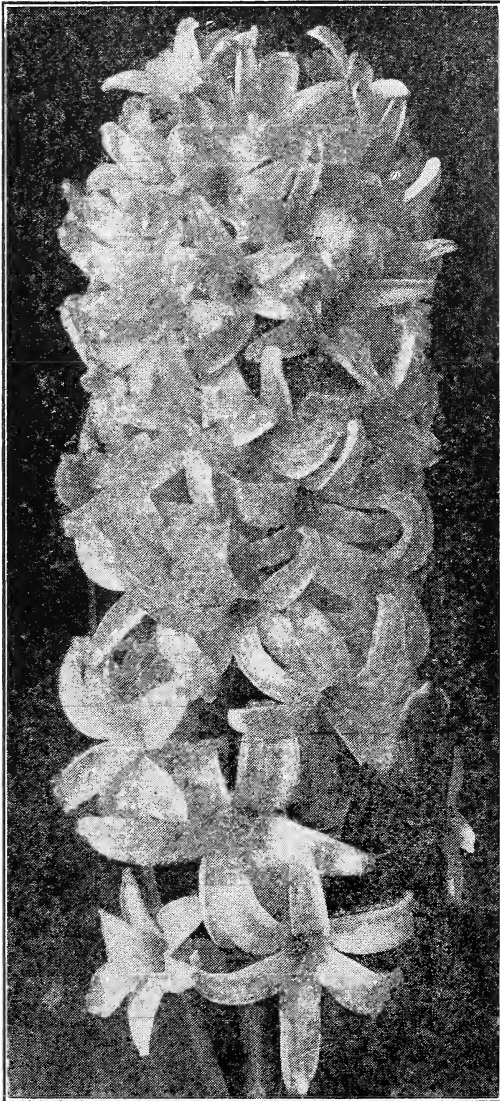

We will allow a liberal discount on all Bulb orders, large enough for special importation, providing they are placed with us before August 1st.

Burnett's Exhibition Hyacinths

These hyacinths are specially prepared for indoor culture for greenhouse, conservatory or window bloom and can be grown in pots, pans, or special hyacinth glasses listed on next page.

SELECTED TOP-ROOTS

Note.—Our growers are the most reliable in Holland and are selecting for us the very choicest stock that can be procured; therefore we issue a special invitation to all intending exhibitors to inspect our stocks before placing orders.

EXHIBITION HYACINTH

For exhibition purposes no better quality of bulbs is procurable, and the varieties comprise those known for their giant spikes, covering a complete range of colors from white to violet blue.

SINGLE RED

- La Victoire. Scarlet. Very large truss.
- Roi des Belges. Beautiful scarlet; fine truss.
- Robert Steiger. Deep crimson.

Tall Shape. In various colors.

Each, 40c; doz., \$4.00

Tye Shape. In various colors.

Each, 45c; doz., \$4.50

DARWIN TULIPS GREET THE MORNING SUN

Burnett's Giant Darwin Tulips

These wonderful tulips bloom in May after the early tulips, hyacinths and narcissi are over, and continue for from two to three weeks until the peony commences to unfold its petals.

To thoroughly enjoy their great wealth of beauty, and their stateliness, as they carry their giant flowers erect on tall stems, they should be planted in masses of at least 50 of a kind in open beds, or in wide borders close to a hedge, fence, shrubbery or residence, in fact anywhere that affords a background to show off their wonderful shades. They are also extremely effective planted among the perennials in the herbaceous border in colonies of 12 or more bulbs of a kind, where they can be left undisturbed for two or three years. Plant 4 to 5 ins. deep and 6 ins. apart.

	Doz.	100
Anton Roozen. Rose-pink, edged with pale rose. Large cup-shaped flower	\$0.85	\$6.00
Baron de la Tonnaye. Lively rose, tinged blue	.60	4.00

Burnett's Selected Narcissi

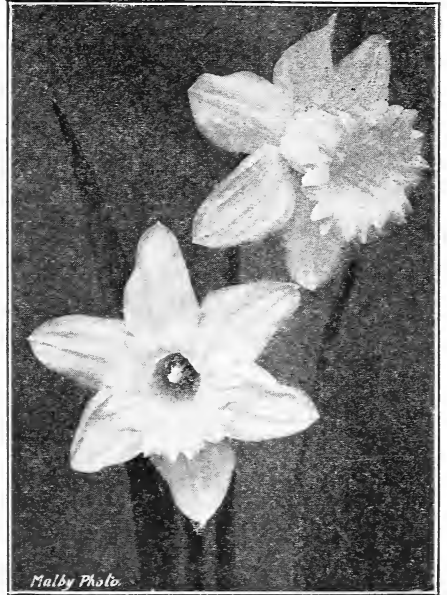

(DAFFODILS)

Narcissi, commonly called daffodils, are among the best known and most valuable flowers for winter and spring bloom both under glass and out of doors.

The various classes offer splendid material for massing in beds or borders, or for grouping among plants in the herbaceous border as already suggested for late flowering Tulips. They are extremely handsome naturalized in grass in clumps or broken lines, where they will thrive year after year without care or attention.

NARCISSUS—Polyanthus Flowered

Polyanthus Narcissi

Paper White Grandiflora

This Narcissus is one of the most popular of indoor winter and spring flowers. Millions are annually imported for the commercial growers and for those who enjoy the companionship of their delightful appearance and fragrance in their living rooms. For the latter purpose they are usually grown in ornamental bowls, filled with gravel and water in which they thrive and bloom luxuriantly. Our stock is the true large-flowered type.

USE BONE MEAL FOR ALL BULBS

There is no safer or better fertilizer than BONE MEAL for all spring flowering bulbs. Mix it in your potting compost at rate of 3 lbs. to the bushel, or a handful to a square yard for beds and borders.

BURNETT'S FINE GROUND BONE
10 Lbs., 75c; 100 Lbs., \$4.50

Burnett's Famous Freesias

The most popular of all winter-flowering bulbs, for no other excels it in fragrance, grace of appearance and ease of culture. If planted early it can be had in bloom by Christmas. Ten or twelve bulbs should be used for a 6-inch pot or pan. Freesias do well when planted in benches in a cool house or frame.

FREESIA PURITY

Burnett's Purity

This magnificent, glistening pure snow white Freesia is undoubtedly the finest variety grown and is becoming more popular every year. The flowers are extra large and very fragrant. One bulb will throw from three to five flower spikes, each of which will have eight to eleven buds borne on extra long stiff stems, showing well above the foliage. Splendid for decorative purposes.

Monster Bulbs. Doz., 75c; per 100, \$5.50; per 1,000, \$50.00.

Large Selected Bulbs. Doz., 60c; per 100, \$4.50; per 1,000, \$40.00.

New Colored Freesias

We can supply these beautiful new Freesias which will produce flowers larger than "Purity" and making a charming contrast to this famous White Freesia, in the following new varieties:

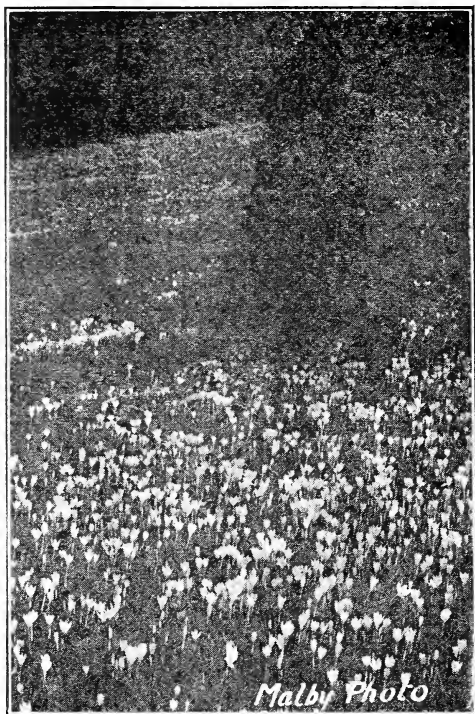

Barr's Giant Yellow. The best yellow variety.....	Doz.	100	\$1.00	\$7.50	Splendens. Flowers of beautiful deep lavender.....	Doz.	100	1.00	7.50

Crocus

Crocus make a gorgeous display when planted in masses or in a border. They can also be planted on the lawn among the grass, where they look very pretty in the early spring. They are perfectly hardy and can be left in the ground for several years.

Hybrid Named Crocus

MAMMOTH FLOWERING SORTS

The bulbs of Hybrid named Crocus are from three to four times larger than the ordinary common sorts, and will produce much finer flowers.
